### OUR MISSION AND VISION

The Montana Housing Coalition is an advocate for a coherent state housing policy that creates homes that working families, seniors, and Montanans with disabilities can afford to rent or buy. The coalition envisions playing a central role in creating housing and community development that produces desirable, healthy, thriving and affordable communities.

Together, we can make it happen. **Every membership makes a difference.** Your support will help make housing a priority in every local community and in Helena. Join the coalition today.
